

Figure 5 shows a present invention protective tarp with a plurality of tank compartment anchors arranged symmetrically from a continuous roll.

Figure 6 and 7 show tarp segments cut from the present invention tarp shown in Figure 5.--

On page 8, line 7, delete "to cover" and insert in its place --to cover--.

On page 8, line 15, delete "it's", and insert in its place --its--.

On page 10, line 12, delete "Velcro" and insert in its place --VELCRO®

(a hook and loop fastener)--.

IN THE CLAIMS:

Cancel claims 1 through 20 and insert the following new claims 21 through 40:

--21. A protective tarp for covering a mass, which comprises:

a flat, flexible sheet material having a top and a bottom and having a peripheral edge; a plurality of tank compartment anchors separate and apart from one another and said peripheral edge, each of said plurality of tank component anchors having at least one fill orifice and having closure means for said at least one fill orifice.

22. The protective tarp of claim 21 wherein said plurality of tank
